¡CUIDADO!
Para reparar, mantener o sacar algún material, ponga el transportador en el suelo.
Antes de trabajar bajo el transportador de centro, levante el transportador y ponga el seguro que se encuentra detrás del transportador.
Entonces detenga el motor y asegúrese que los mecanismos se han detenido.

To repair, replace or dislodge material, rest conveyor on ground.
Before working under center conveyor, raise conveyor and engage safety lock in back of conveyor.
Then shut off engine and be sure mechanism has completely stopped.
