

Sign in to Dropbox with Google Sign-In

If you use Google (for example, Gmail or Google Docs), you can use your Google account to access Dropbox. With Google Sign-In, you can access Dropbox without having to remember a Dropbox password.

You can access Dropbox with Google Sign-In on:

- dropbox.com
- The Dropbox Android app
- The Dropbox iOS app
- The Dropbox desktop app

Note: Google Sign-In isn't available on Windows mobile devices.

For Dropbox Business users:

- Verify that Google Sign-In is enabled for your team.
- Verify that single sign-on (SSO) is *not* required for your team (check with your admin if you're not sure).

For Dropbox Android app users:

- Verify that Google Play Services are installed on your device.
- Verify that Google Play Services are up-to-date. If the application is not up-to-date, update to the most recent version.
- Verify that you gave Dropbox for Android the required permissions. If you clicked **Deny** during set up, Google will not grant Dropbox the permissions required for Google Sign-In to work.
