What is it For

Wirelessly connecting a notebook or PC to a flat screen TV or projector, supporting both video and audio

User Benefits

- Movie playback with stereo sound from you PC to your television
- Browse the Internet and stream internet video directly to your flat screen TV
- Watch your DSC pictures and camcorder movies from your PC
- Display presentations and content wirelessly using a projector

What is Included

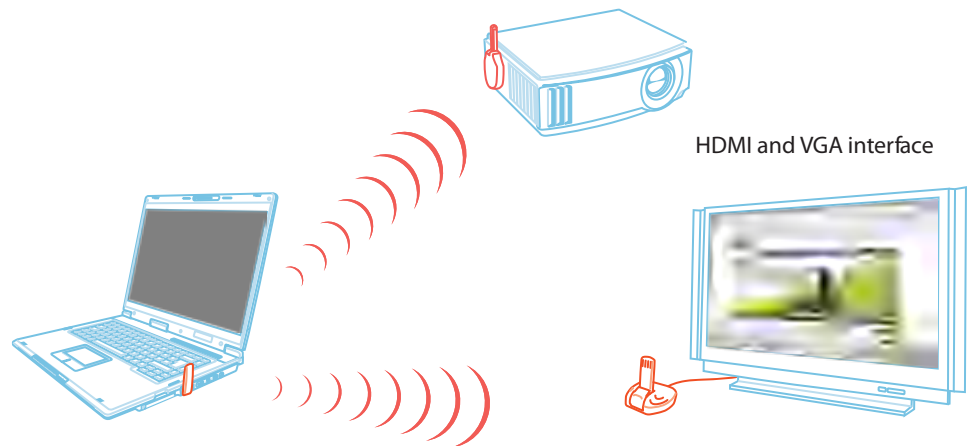

- Wireless USB PC Adapter
- Wireless USB Device Adapter (plugs into the A/V Base) with HDMI (Audio and Video), VGA (Video) and 3.5mm jack (Audio, Stereo) outputs
- Power Supply Unit
- Quick Start Guide
- CD with software, drivers and user manual

Overview

The Wireless USB Audio/Video Display Adapter allows users to watch and share any notebook or PC content (such as pictures, movies and presentations) and any Internet content on their Flat screen TV, projector, or monitor without cable limitations.

The PC Adapter connects to a USB port available in all notebooks & PC's, and the A/V Adapter connects to an HDMI port (available in flat screen TVs) or VGA port (available in projectors and monitors). Stereo audio is supported via the HDMI port (along with the video) or via a separate 3.5mm audio jack for a complete wireless audio/video experience.

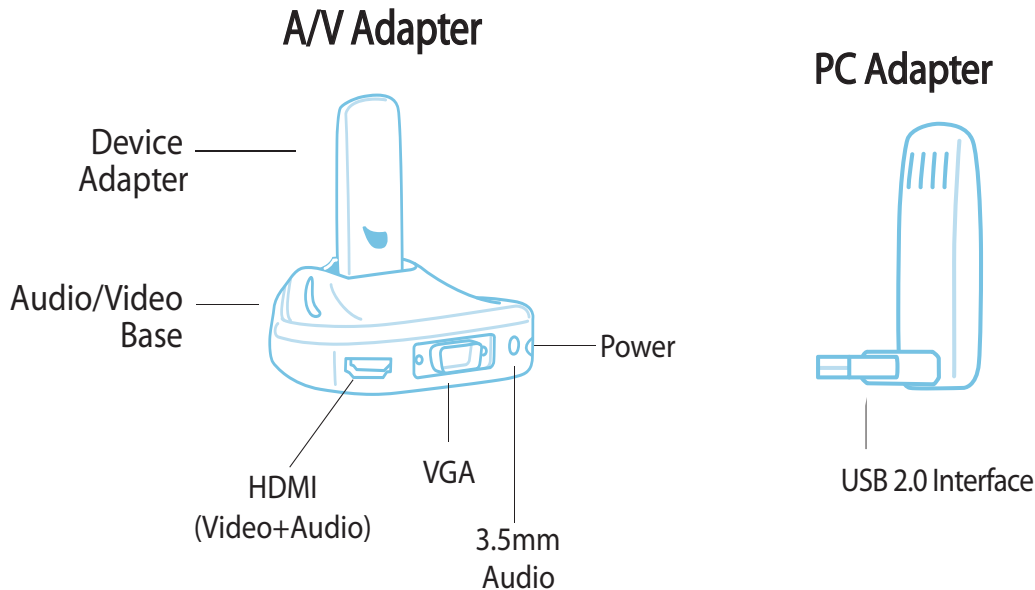

The Wireless A/V Adapter set provides full room coverage, is easy to set up and use and is an ideal solution for home and office users alike. It incorporates Wisair's WSR601 single chip and Wisair's UltraSpeed technology, delivering the best combination of performance and cost.

Wireless USB PC to TV Audio/Video Display Adapter

Product Brief

About Warpia
