Q-WAVES™

Quicklink TV

Easily link your PC to your TV with Quicklink in-room Wireless!

Play anything from your Laptop, Netbook* or Desktop PC on to your TV!

Overview

This Quicklink TV kit will allow you to take virtually any content from your Laptop, Netbook* or Desktop PC and play it on your TV screen or projector within the room you are in wirelessly! It's really easy to set-up and ideal for viewing your favourite films & TV programmes from web sites such as Veetle.com, BBC iPlayer and most Internet TV websites. Great for kids to play online games and for family and friends to view photos, plus you can even have video calls on SKYPE - all on your TV within the room you are in!

The really smart thing about Quicklink TV is multi-tasking. Whilst streaming content to your TV you can also continue using your Laptop, Netbook* or Desktop PC as normal for work or leisure including the Internet - both at the same time! Quicklink TV is easy to use, simply plug one USB into either your Laptop, Netbook* or Desktop PC and the other into the base unit that connects to your TV via the FREE HDMI cable (with full video and audio support) supplied or VGA cable (not supplied).

Key Benefits

WATCH, VIEW, PLAY & LISTEN
Play absolutely everything from your PC & watch all your favourite catch up and Internet TV, play on-line games and even have a Skype video call - all on your TV!

SIMPLE & EASY
Just plug one USB Adapter into either your Laptop, Netbook* or Desktop PC and the other adapter into the base unit that then connects to your TV via the HDMI or VGA cable. Install the software from the CD provided.

WIRELESS
Wireless USB eliminates cable clutter and allows placing devices anywhere in the same room - no network set-up required.

MULTITASKING
Watch TV and work at the same time from your PC by using the "Extended Mode" or, by using "Mirror Mode" you can view the same content from your PC on the TV simultaneously!

PERFORMANCE
Superior ULTRAFAST performance and range, with full room coverage, to a distance of up to 30ft/10m. Speed up to 480Mbps.

COMPATIBILITY
The Quicklink TV kit can be used worldwide!
