

Comparison: Claim 1 of the '920 Patent Compared to Claims 13 and 15 of the '920 Patent

~~Deletions reflect deletions from Claim 1 of the '920 Patent~~; Additions reflect text added to Claims 13 and/or 15 of the '920 Patent

'920 Patent Claim 1 Limitation [1.P]	'920 Patent Claim 13 Limitation [13.P]
1. A method of presenting representations of payment accepting unit events, comprising:	1. <u>13.</u> A method of presenting representations of payment accepting unit events , <u>mobile device</u> , comprising:
Limitation [1.1]	Limitation [13.1-4]
at a mobile device with one or more processors, memory, one or more output devices including a display, and one or more radio transceivers:	at a mobile device with one or more processors, memory, radio transceivers; one or more output devices including a display; <u>one or more processors;</u> and one or more radio transceivers: <u>memory storing one or more programs to be executed by the one or more processors, the one or more programs comprising instructions for:</u>
Limitation [1.2]	Limitation [13.5]
identifying one or more payment accepting units that are available to accept payment from a mobile payment application executing on the mobile device,	Identical to '920 Patent Limitation [1.2]
Limitation [1.3]	Limitation [13.6]
the identifying based at least in part on an identifier or location corresponding to the one or more payment accepting units,	Identical to '920 Patent Limitation [1.3]

Limitation [1.4]	Limitation [13.7]
wherein the one or more payment accepting units are payment operated machines that accept payment for dispensing of products and/or services;	Identical to '920 Patent Limitation [1.4]
Limitation [1.5]	Limitation [13.8]
displaying a user interface of the mobile payment application on the display of the mobile device,	Identical to '920 Patent Limitation [1.5]
Limitation [1.6]	Limitation [13.9]
the user interface being configured to display a visual indication of the one or more payment accepting units and	Identical to '920 Patent Limitation [1.6]
Limitation [1.7]	Limitation [13.10]
accept user input selecting an available payment accepting unit of the one or more payment accepting units;	Identical to '920 Patent Limitation [1.7]
Limitation [1.8]	Limitation [13.11]
establishing via the one or more radio transceivers a wireless communication path including the mobile device and the available payment accepting unit of the one or more payment accepting units;	Identical to '920 Patent Limitation [1.8]
Limitation [1.9]	Limitation [13.12]
after establishing the wireless communication path, enabling user interaction with the user interface of the mobile payment application to complete a transaction with the available payment accepting unit,	Identical to '920 Patent Limitation [1.9]

Limitation [1.10]	Limitation [13.13]
wherein the user interface includes a visual representation of the available payment accepting unit,	Identical to '920 Patent Limitation [1.10]
Limitation [1.11]	Limitation [13.14]
an indication of a balance,	Identical to '920 Patent Limitation [1.11]
Limitation [1.12]	Limitation [13.15]
and an affordance that, in response to a user input, indicates completion of the transaction;	Identical to '920 Patent Limitation [1.12]
Limitation [1.13]	Limitation [13.16]
exchanging information with the available payment accepting unit via the one or more radio transceivers, in conjunction with the transaction; and	Identical to '920 Patent Limitation [1.13]
Limitation [1.14]	Limitation [13.17]
after exchanging the information, displaying, on the display, an updated user interface of the mobile payment application to the user of the mobile device.	Identical to '920 Patent Limitation [1.14]

'920 Patent Claim 1 Limitation [1.P]	'920 Patent Claim 15 Limitation [15.P]
1. A method of presenting representations of payment accepting unit events, comprising:	1. 15. A method of presenting representations of payment accepting unit events, <u>non-transitory computer readable storage medium storing one or more programs, the one or more programs</u> comprising:
Limitation [1.1]	Limitation [15.P cont'd]
at a mobile device with one or more processors, memory, one or more output devices including a display, and one or more radio transceivers:	at <u>instructions, which, when executed by</u> a mobile device with one or more processors, memory, one or more output devices including a display, and one or more radio transceivers, <u>cause the mobile device to perform operations comprising:</u>
Limitation [1.2]	Limitation [15.1]
identifying one or more payment accepting units that are available to accept payment from a mobile payment application executing on the mobile device,	Identical to '920 Patent Limitation [1.2]
Limitation [1.3]	Limitation [15.2]
the identifying based at least in part on an identifier or location corresponding to the one or more payment accepting units,	Identical to '920 Patent Limitation [1.3]
Limitation [1.4]	Limitation [15.3]
wherein the one or more payment accepting units are payment operated machines that accept payment for dispensing of products and/or services;	Identical to '920 Patent Limitation [1.4]

Limitation [1.5]	Limitation [15.4]
displaying a user interface of the mobile payment application on the display of the mobile device,	Identical to '920 Patent Limitation [1.5]
Limitation [1.6]	Limitation [15.5]
the user interface being configured to display a visual indication of the one or more payment accepting units and	Identical to '920 Patent Limitation [1.6]
Limitation [1.7]	Limitation [15.6]
accept user input selecting an available payment accepting unit of the one or more payment accepting units;	Identical to '920 Patent Limitation [1.7]
Limitation [1.8]	Limitation [15.7]
establishing via the one or more radio transceivers a wireless communication path including the mobile device and the available payment accepting unit of the one or more payment accepting units;	Identical to '920 Patent Limitation [1.8]
Limitation [1.9]	Limitation [15.8]
after establishing the wireless communication path, enabling user interaction with the user interface of the mobile payment application to complete a transaction with the available payment accepting unit,	Identical to '920 Patent Limitation [1.9]

Limitation [1.10]	Limitation [15.9]
wherein the user interface includes a visual representation of the available payment accepting unit,	Identical to '920 Patent Limitation [1.10]
Limitation [1.11]	Limitation [15.10]
an indication of a balance,	Identical to '920 Patent Limitation [1.11]
Limitation [1.12]	Limitation [15.11]
and an affordance that, in response to a user input, indicates completion of the transaction;	Identical to '920 Patent Limitation [1.12]
Limitation [1.13]	Limitation [15.12]
exchanging information with the available payment accepting unit via the one or more radio transceivers, in conjunction with the transaction; and	Identical to '920 Patent Limitation [1.13]
Limitation [1.14]	Limitation [15.13]
after exchanging the information, displaying, on the display, an updated user interface of the mobile payment application to the user of the mobile device.	Identical to '920 Patent Limitation [1.14]
