Patents (current products)

Crestron has been a leading innovator in commercial and residential control and automation solutions for more than 40 years. Crestron employs over 450 engineers in its 150,000 square foot state-of-the-art research & development facility in Rockleigh, New Jersey. This commitment to innovation is evident in Crestron's large and growing patent portfolio.

In accordance with Section 287(a) of Title 35 of the United States Code, the reader is hereby placed on notice of Crestron Electronics' rights in the United States Patents listed on this site and associated with the following products.

The patents and patent applications referred to below as "Barco ClickShare Patents" include US 8756348, US 9083769, US 9722986, US 10050800, US 10585814, US 10684972, US 10762002, US 10795832, US 10904103, US 10965480, US 11151060, US 11216392, US 11258676, US 11403237, US 11422951, US 20210191893, US 20220173981, US 20220206963, US 20220269634, US 20220276974.

The patents listed below as "Sipco/IPCO Wireless Mesh" indicate that the associated products are covered by one or more claims of patents listed in the following link: <http://sipcollc.com/patent-list/> (last accessed on February 22, 2021)
