**CLAIM CONSTRUCTION ORDER**

The Court held a *Markman* hearing on January 24, 2022. During that hearing, the Court provided its final constructions. The Court now enters those claim constructions.

**SIGNED** this 24th day of January, 2022.

  
ALAN D ALBRIGHT  
UNITED STATES DISTRICT JUDGE

#7: “wherein the controller is further adapted to determine which of the blocks of the plurality of the blocks in the MLC and SLC non-volatile memory modules are accessed most frequently and wherein the controller segregates those blocks that receive frequent writes into the at least one SLC non-volatile memory module and those blocks that receive infrequent writes into the at least one MLC nonvolatile module, and maintain a count value of the blocks in the MLC non-volatile memory module determined to have received frequent writes and that are accessed most frequently on a periodic basis when the count value is a predetermined count value, transfer the contents of the counted blocks in the MLC non-volatile memory module determined to have received frequent writes after reaching the predetermined count value to the SLC non-volatile memory module and which determined blocks in the SLC are determined in accordance with the next equivalent range

Plain and ordinary meaning

Indefinite.

Although it is possible for a person of ordinary skill (“POSA”) to identify some embodiments that fall within the scope of the claim, a POSA would not be reasonably certain of the full scope of the claim.

Not indefinite. Plain-and-ordinary meaning.
