**Product Details**

**Classic with a Fresh Twist**  
White filament design and clear glass adds a timeless touch to your space. These LED bulbs are as beautiful on as off, perfect for exposed bulb fixtures. Enhance your space with discreet bulbs that let your décor shine.

Yellow vs. White Filament

Perfect for exposed bulb fixtures

**Neutral Glow**  
True White bulbs create a balanced, everyday space.

**Smooth Dimming**  
Soft mood lighting is just a switch away.

**Long-Lasting, Energy-Efficient LED**  
Save time replacing hard-to-reach bulbs and save money on energy bills.

## About This Product

Upgrade your lighting to Feit Electric's elegant Exposed White Filament LED Bulbs for a fresh take on vintage bulbs. These first-of-their-kind white filament bulbs take a traditional clear glass A-shape bulb and add lower-profile white filaments. Unlike yellow filaments, these blend into any decor style for a timeless look that complements any room. Their dimmable 3500K True White glow is ideal for creating a relaxing and comfortable atmosphere in bedrooms, living rooms, offices, and more. Use these bulbs in any fixture with a medium E26 base for a variety of general-purpose and decorative lighting applications. A1560935CAWFILHDRP/2 bulbs emit 750 lumens of light while using just 8.3 watts, up to 86% less energy than standard 60-watt incandescent bulbs. A 90+ CRI infuses vibrance into your space, bringing out truer colors and more natural skin tones. Get up to 15,000 hours of life with an estimated energy cost of only \$1.00 per year. Create a stylish feel that instantly livens up both home and commercial spaces.

## Highlights

- 60-Watt equivalent LED light bulb
- A15 shape light bulb with medium (E26) base
- Brightness: 750 Lumens
- Estimated yearly energy cost: \$1.00 (based on 3-hours/day, 11/kWh, costs depend on rates and use)
- Average Life: 13.7-years (based on 3-hours/day)
- Light appearance: 3500K (true white)
- Energy used: 8.3-Watt (equivalent to a 60-Watt standard incandescent light bulb)
- Input line voltage: 120-Volt
- Uses 86% less energy compared to a standard incandescent light bulb
- California energy commission (CEC) title 20 certified
- Exposed white filament blends contemporary and vintage aesthetic for maximum versatility
- Ideal for use in clear shade lamp or exposed bulb decorative lighting applications
- Suitable for indoor/outdoor enclosed use and rated for damp locations

[Ask a Question](#)

**How are these rated for 13 years when I had 3 bulbs flicker/die in less than a month?**

By [Brian](#), Dec 21, 2024

2 Answers | [Answer This Question](#)

The same thing has been happening to us! We have replaced them twice within a month and a half. Every day a new one starts flickering and dies off.

#### What Customers Say

Summarized by generative AI from text of customer reviews

Customers say the Feit Electric 40-Watt Equivalent A15 Dimmable White Filament LED bulbs offer a pleasing white light and an attractive design that enhances various fixtures. However, many users report a significant issue with longevity, as numerous bulbs begin to flicker and fail within a short period of use, often leading to warranty claims. While some customers appreciate the aesthetic and brightness, the overall reliability of the product has raised concerns, prompting many to seek alternatives.

- short lifespan
- white filament
- replacement needed
- bulb failure
- poor performance
- poor durability

States that it's "True White" but it's actually amber. Brought in the old bulb and the associate stated this was the replacement bulb. It was not.

These bulbs are a joke. I have purchased and replaced 4 and complained to factory who sent 2 additional bulbs. After about 1 MONTH (they are in a bathroom fixture) each bulb starts blinking, like a strobe light. Guarantee, worthless.

I've had 2 bulbs that are only a few weeks old since I purchased and they have already stopped working. In 2 different lights. And max on lights is 100 W and these are 60 W. These bulbs are not cheap so I'm very unhappy with quality.

Apr 2, 2025

Verified Purchase

Bought 2 boxes of the 2 pack. One of the bulbs started flickering only after 3weeks so replaced it. Now another one started flickering about a week later! Thought it was strange that the 1st one went bad so fast. But when the 2nd one went bad I knew those are not good lights to purchase. And they are not used that often so the timeline is no where near 3yrs warranty from defects.
