

Digi Deal

“Putting it All on the Table”<sup>®</sup>

## Plug and Play DTS-A Table

DigiDeal is proud to introduce its most versatile electronic platform yet, the DTS-A (Digital Table System - Automated). The latest evolution of DigiDeal's proven DTS products; this new 5-player platform allows operators to switch between multiple game themes and fits in the same compact footprint of a standard Blackjack table. Each player position features a 15" player screen with multiple language selections and has its own bill validator and ticket printer. The platform supports all popular player tracking systems and is fully SAS compatible. The DTS-A can be configured to use a live host or can be fully automated with no host at all. The DTS-A will also interface with outputs from live casino elements such as real cards from a smart shoe or a roulette wheel.

If you want the ultimate in a standalone game system, there's AVA. AVA is the perfect "Automated Virtual Attendant" that can be paired with the DTS-A. AVA offers multiple host appearance options as well as languages. These friendly and energetic hosts are always on duty, welcoming players to the game, supporting and interacting with them throughout. Also, operators can select from different background displays or can customize their own.

## All Virtual, DTS-V The Pinnacle of E-Table Technology

DigiDeal's 6-player, DTS-V is the pinnacle of e-table technology. This is the e-table system all others are trying to imitate. With a multitude of choices for configuration and the unmatched ability to meet GLI requirements as either a slot (GLI11) or an electronic table game (GLI 24 or 25), the DTS can meet the requirements of your gaming jurisdiction. The DTS-V covers the full range of money management options (cash, chips, keyed-on credits or TITO); connects to a SAS back-end system; and can come with player tracking—you choose!

Increase your drop by doubling or tripling hands per hour and eliminating the lengthy issue resolution processes. The DTS-V table system tracks all electronic game transactions and offers easy-to-view histories of all game play. Enhance your table game entertainment value by offering multiple side bonus bets or an entertaining host to provide the social interaction that table game players have always enjoyed.

Meet changing player demand by easily switching between popular game themes. For maximum player appeal and bottom line profitability, DTS-V is always the perfect fit!

## Live Chips, DTS-C Fully Hosted E-Table with Chips

DigiDeal's DTS-C is *all* table game (GLI 24 or 25). Utilizing a live host and real chips combined with virtual cards, the DTS-C can more than hold its own in any traditional pit. You'll get the increased speed and security that only DigiDeal e-tables provide, plus the look, feel and social interaction of a traditional felt game.

With DTS-C you eliminate the recurring costs of cards, peeking devices and shufflers, while more than doubling the number of hands per hour possible on a traditional felt table. No more miscoups, marked cards or bad shuffles. Factor in all the speed and efficiencies the DTS-C table provides and a low limit \$5 DTS-C Blackjack table will out-perform any \$25 traditional felt table! Plus, the customizable softop layout will still look great after months of play eliminating the cost and downtime of replacing felts every month. A small pit or your entire floor, the DTS-C is the perfect fit for any pit.

# Live to Virtual Table

DigiDeal's unmatched flexibility now offers operators the L2V (Live to Virtual) option of using live cards in conjunction with its proven DTS (Digital Table System). Only the L2V table can be configured to accept any or all the casino methods of buying into the game. Players can buy in using tickets (TITO) or cash and chips by using keyed on credits. After buying in the credits are displayed in the player's bank as life like virtual chips for wagering. Only L2V offers full player tracking with SAS compatibility. Each card dealt from the shoe is scanned, verified and digitally displayed on the player's screen along with card totals and end of game outcomes. When it's slow the L2V can be played in auto host mode or in AFT jurisdictions the table can be switched to fully automated play. The choice is yours, L2V can be configured to use nearly any third-party, card scanning shoe or be quickly converted to a DTS-V when you're ready for the added benefits of an all-virtual table.

# 8 Player, DTS-X Stand Alone, All-in-One Table!

DigiDeal's DTS-X Table is the ultimate all-in-one, non-hosted e-table! The X-Table's innovative 8-player design requires no dealer, attendant or kiosk providing an individual bill acceptor and ticket printer at each player position.

The X-table™ delivers a rich interactive graphical environment on a 15" touch screen display that intuitively leads the player through game play. A large center LCD screen displays all the game action for both players and spectators. Meet changing player demand by easily switching between the popular game themes available on the X-Table.

The X-Table's sleek, comfortable design and economical footprint is fully network compatible and compliant with SAS-enabled financial tracking and player reward systems, making it easy to integrate into any casino floor plan.

Can be configured to meet **GLI 11 or 24**

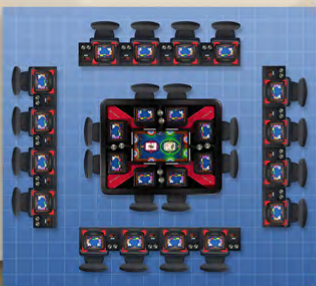

- Available with Multiple Game Themes**
- Texas Hold'em Xtreme
  - Classic Blackjack
  - Classic Baccarat
  - Four the Money
  - ...and More!

## Play on Demand X-Pod Modular Wagering Terminal

DigiDeal's modular X-Pod wagering terminals gives operators an easy and affordable way to expand any DigiDeal game theme to just the right number of seats for their property. Each X-Pod wagering terminal has its own bill acceptor and ticket printer and offers support for full player tracking with SAS compatibility. Connect to the DTS-X or DTS-A platform and expand the seating capacity to nearly one hundred player positions. Create a stand alone game area using the AVA (Automated Virtual Attendant) system or flat screen displays for a custom stadium seating arrangement. Choose from a wide assortment of popular DigiDeal table games like, Classic Baccarat, or exciting Classic Roulette, or accept live video feed from a centralized live game. The possibilities are endless with DigiDeal's X-Pod Terminals.

*X-Table Game Platform and X-Pods shown with Classic Roulette and Classic Baccarat*

# With Pik-it Poker You Choose Which Cards to Play... You're in Control!

Available in 3 Versions: Electronic, Felt and Mobile

## PIK-IT POKER

Pik-It Poker is an exciting new house-banked poker game that's now available for the DTS-C & V electronic platforms as well as on felt and as a mobil app. In the casino versions the player gets to choose between playing their best three or five card hand against the dealer after seeing their cards.

### **DTS Version...You Pick Your Own Three Cards for the Bonus!**

Players who wager the optional 3-Card Bonus bet get to choose which three cards to turn over for there 3 card bonus hand. If they get a pair or better, they win.

Players then review their five cards and choose to play their best three card hand, their entire five card hand or fold. Once they have decided and wagered, the host reveals the five cards in the dealer hand. The hands are compared and resolved using standard three or five card poker ranking.

The 5-Card Bonus bet pays if the five card hand is two pair or better.

### **Mobile Version... it's All the Player's Picking Perception!**

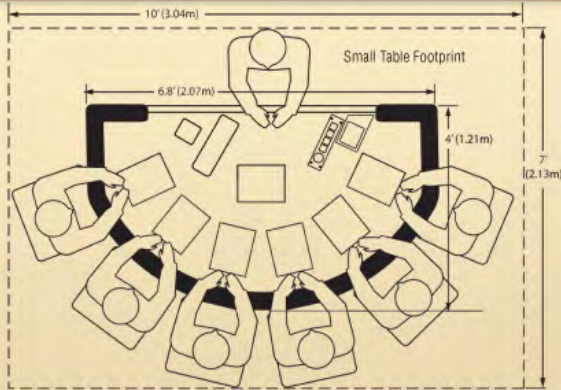

Players pick and reveal their first card and if it's a 9 or higher they win! Then they pick a second card and if there 2 card hand is a pair, straight or flush they win again! Next the dealer hand reveals two cards and the player has the option to double their main bet against the dealer. All cards are revealed and high hand wins.

### **Felt Version... it's 3 or 5, Plus an Awesome 3 Card Bonus!**

Choose to play your best 3 or 5 card hand against the dealer and play the awesome 3 card bonus.

# The Unrivaled Versatility and Flexibility of the DTS Platform Allows it to be C

## Adaptability is the Key and DigiDeal Tables Deliver!

In the complex and ever-changing casino gaming market the ability to adapt and deliver is critical. Nearly every country, region or state has its own unique set of regulations and needs. What is perfect for one is impossible for another. That's why DigiDeal has worked tirelessly to ensure that its DTS electronic table games are the most nimble in the industry. No matter what set-up your specific needs require you'll always get unmatched productivity, profitability and player satisfaction. Whether it's a table for a full Vegas-style casino, a slots-only jurisdiction or a new emerging market, DigiDeal can configure the perfect fit for your electronic pit!

## T3 Triplex Table Sign Three Signs in One!

Easy to use and simple to customize, plus eye-catching dynamic graphics put this high tech sign heads above the rest!

Only the DigiDeal T3 uses touch screen technology allowing the operator direct access for editing menus right on the display. Access is password protected to prevent tampering and the casino can create and upload its own custom slide show, video clip or use the text editor for special banner promotions.

The T3 is available in English, Spanish or Chinese and offers a large selection of currency symbols for use with bet limit amounts. The unit mounts easily on existing furniture and will work with both 120 and 220 voltages.

Put the best face on your table games with the all-in-one DigiDeal T3 sign.

**2 EXCITING SIDE BETS!**

**Classic BLACKJACK**  
...with More Ways to Win Big!

TABLE LIMITS Minimum Bet: \$1 Maximum Bet: \$100

The top banner area can be uploaded with slides, video or create be easily edited by the operator to show a special promotion or greeting.

T3's large center section displays a fully animated game logo. The game title and features are constantly cycling, grabbing patrons' attention and attracting players to the table.

Across the bottom of the T3 is a bet limit display. Operators can quickly change color themes and bet limits by simply accessing the editing menu right on the screen. A simple swipe across the table limits area will display "Table Closed" for use when the table is not available for play.

**Touch Screen Control:**

Use the full size display or a compact control module to make the selection of random outcomes. Two touch process; first touch selects, second touch reveals outcome.

- Access is password protected to prevent tampering.
- Direct access for the operator to edit theme features menu from the display itself.

**Table DROID™**  
Digital Random Outcome Interactive Display

Table DROID is a fully automated “Digital Random Outcome Interactive Display.” It’s designed to be used on any gaming table for a fun, fast and secure method of displaying the outcome of a game or arriving and displaying a random outcome.

Using approved proprietary random number generator software, the DROID can display a wide variety of graphically animated outcomes whether it is virtual dice, dice cards, roulette cards roulette numbers, dominos, or standard playing cards. In addition, the Table DROID provides the players with valuable game streaks and trends, plus a visual outcome history.

Using the Table DROID is fun, fast and entertaining for the players. It saves on labor and maximizes game security. The Table DROID can be used alone or coupled and linked together for greater player visibility of the simultaneously displayed animated outcome sequence and game information.

# Classic BLACKJACK

...with More Ways to Win Big!

Classic Blackjack™ is so much more than traditional Blackjack! In addition to offering two bonus side bets, Classic Blackjack on the DTS System offers a true table game experience while outperforming felt tables two to one.

## Play Two of Four Exciting Side Bets!

Only Classic Blackjack offers the players two exciting side bets in addition to the main game. The Casino can choose any two of four popular side bets to offer, like: High Tie Blackjack®, Upcard Luck 21™, Bad Beat Blackjack® and Buster Blackjack™.

## The Casino Chooses the Bonus Bets!

There are four popular bonus side bets for the casino to choose from: High Tie Blackjack and Upcard Luck 21 bonus bets, which are paid on the first two cards or "hole" cards; and the Bad Beat Blackjack and Buster Blackjack bonus bets, which are paid on the final hand outcome or "end game." Now the operator can decide what type of bonus side bet and how many to offer its patrons: two, one or none at all. Multiple pay charts are available for each side bet and two side bets can be in play at one time (one hole card and one end game).

FIRST TWO CARDS <small>pay...</small>

21 and ties	10X
18 or 20 and ties	5X
18, 20 or 21 and wins	PUSH

**BAD BEAT BONUS**

# Classic BACCARAT

...with More Ways to Win Big!

Classic Baccarat™ is so much more than traditional Baccarat! In addition to offering two exciting bonus side bets, Classic Baccarat has multiple commission and no commission settings.

## Two Exciting Side Bets!

Only Classic Baccarat offers the players two exciting side bets in addition to the main game. The Casino can choose none, one or two popular side bets to offer: Win Sum Bonus™ and Match Card Bonus™.

## The Casino Chooses the Bonus Bets!

There are two popular bonus side bets for the casino to choose from: Win Sum Bonus which pays on the sum total of the cards from both hands and Match Card Bonus which pays when hands get the same card value. Multiple pay charts are available for each side bet. Now the operator can decide what type of bonus side bet and how many to offer its patrons: two, one or none at all!

Now Available on the Ultimate Electronic Table Game Platforms from DigiDeal

## Classic Pai Gow POKER

...with More Ways to Win Big!

Classic Pai Gow Poker™ is traditional Pai Gow plus an exciting new 1-6-8 side bet, and a player-friendly no-commission option. Training is easy because the hands can be automatically set and resolved, so your host can focus on delivering an exciting and fun table game experience!

### Offering More than Traditional Pai Gow Poker!

Classic 1-6-8 Pai Gow Poker plays just like traditional Pai Gow Poker. Each player attempts to beat the dealer with the best possible two-card and five-card hands. Only Classic Pai Gow Poker offers the 1-6-8 Bonus Bet and the option to waive the 5% commission. Like felt Pai Gow Poker, once betting is complete, three dice are rolled to determine the beginning deal position. Seven cards are dealt to all positions and burned if the position is empty. Setting the two hands has never been easier for the player. Peek at your seven cards and select the two cards you want in your low hand. If you're satisfied with how your hands are set just touch Confirm Set. If you are unsure if your hand is set correctly you have the option of touching the House Set button (if enabled) which will automatically set your hands according to the House Set rules. The Dealer's hand is also automatically set according to the selected House Set rules. Classic Pai Gow Poker has four of the most popular House Set rules to choose from.

### 1-6-8 Bonus Bet

In addition to the main bet, a player can place an optional 1-6-8 Bonus Bet. This exciting bet pays if the dealer's seven-card hand is less than a pair. The poorer the dealer's hand, the higher the payoff. Plus, even if the dealer's hand is a pair or better and the player's hand is less than a pair, the player is paid even money. It's like insurance for the player against receiving a poor hand. The casino can select from six different bonus paychart options.

### Four Rolls, No Seven, You Win... plus Four Exciting Side Bets!

Four the Money™ is simplified Craps at its best! Players bet with virtual chips, choose their own lucky dice cup and roll the virtual dice. By placing a Four the Money bet and three subsequent Come bets, players can win after every roll if no seven is rolled.

Four the Money is a Craps style game using two six-sided virtual dice. Once all bets are in, the next player in succession becomes the designated shooter. When the dice cup appears on the shooter's screen the player can touch the cup to move it around the screen and initiate the dice roll or wait for the timer to expire which will automatically roll the dice. Once the shooter rolls, the status of all bets are updated or resolved automatically. The designated shooter continues to roll until they roll a seven. Players can make additional bets or pull back any bets in between rolls (according to the bet rules) until the designated shooter rolls a seven.

**Four the Money Wager:** To win, the shooter must roll the dice four times without rolling a 7.

**Come Bets:** The player wins each Come bet they place if they go the next four rolls without a 7.

**All Small Bet:** Betting that all "small" numbers (2, 3, 4, 5, and 6) will be rolled before a 7. (Two additional pays available)

**All Tall Bet:** Betting that all "tall" numbers (8, 9, 10, 11, and 12) will be rolled before a 7. (Two additional pays available)

**All or Nothing Bet:** Betting that all numbers (2, 3, 4, 5, 6, 8, 9, 10, 11, and 12) will be rolled before a 7. (One additional pay available)

**Any Seven Bet:** Betting that a 7 will be rolled on the next roll. This bet can be placed prior to each roll.

# Classic Hold'em Poker on the 6 Player DTS-C or D and the 8 Player DTS-X Table

## Exciting Side Bet!

Only Texas Hold'em Bonus™ offers players the optional Hole Card Bonus that can pay up to 1000 to 1 plus the option to stay in the game by checking their hand on the Turn and the River.

## Any Two Cards Can Win!

The round begins with the players placing an Ante bet (based on table limits). Players may also place a Hole Card Bonus wager; where players compare their starting hand (hole cards) to a posted pay chart (see chart). All wagers (Ante, Flop, Turn and River) are made by the players before receiving or viewing cards, each step of the way. When everyone is in, two cards are dealt face down to each player and the dealer. Players can now peek at their hole cards. Players must decide whether to place a "Flop" bet (2 times their Ante bet) or fold.

HAND	TRIO (1000 to 1)	PAIR (10 to 1)
A-A For the Player and the Dealer (same time)	N/A (*)	1000 to 1
A-A in the Player's hand (only)	30 to 1	30 to 1
A-A (Suited)	25 to 1	25 to 1
A-Q or A-J (Suited)	20 to 1	20 to 1
A-K (Unsuited)	15 to 1	15 to 1
K-K or Q-Q or J-J (High Pair)	10 to 1	10 to 1
A-Q or A-J (Unsuited)	5 to 1	5 to 1
10-10 through 2-2 (Low Pair)	3 to 1	3 to 1
Three Advertising	8,915	8,915
100 Frequency	1 in 145	1 in 16.5

After players have bet or folded, three community cards (the Flop) are dealt face up. Players now have the option of betting (equal to the Ante bet) or checking the next community card (the Turn). The 4th community card is dealt face up. Players now have the option of betting (equal to the Ante bet) or checking the next community card (the River). The 5th community card is dealt face up. At the end of the round, each player's best five-card hand is highlighted and resolved as well as any Hole Card Bonus wagers.

## Texas Hold'em at its Best!

Texas Hold'em Xtreme™ is traditional Texas Hold'em at its best. Now the novice and experienced player alike can enjoy the fastpaced excitement that is Texas Hold'em Poker. This player banked game is offered on the DTS-X table enabling players to buy in, join the game and leave without disturbing other players.

Our extensive Info/Options screens explain the game in detail and allow players to set personal options, call attendant or sit out.

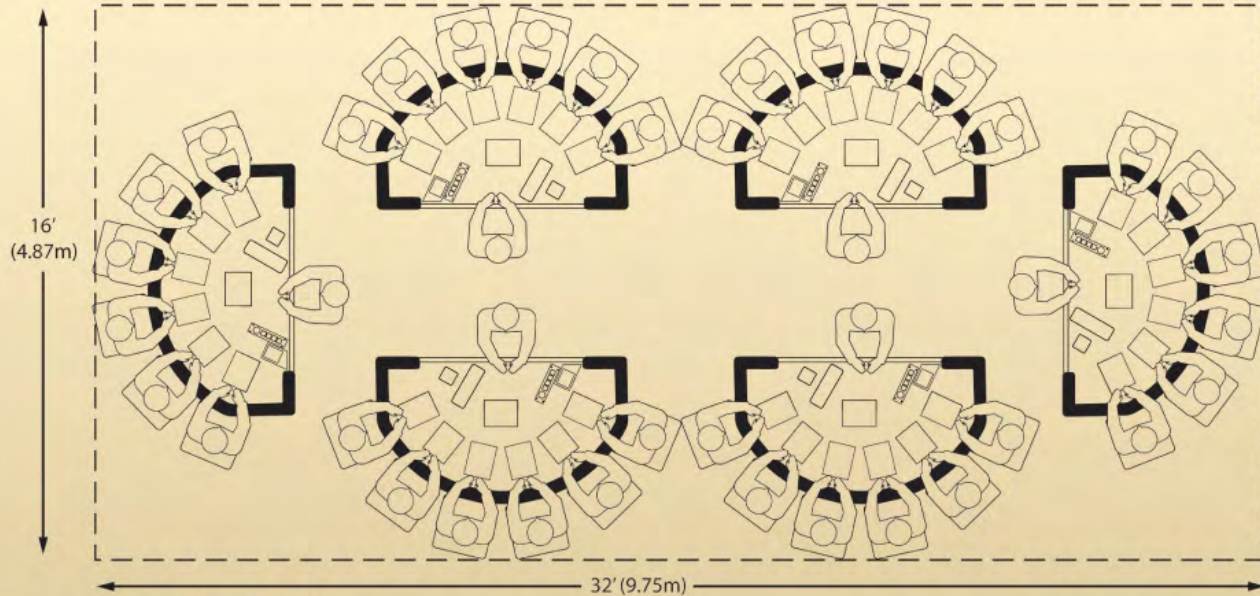

And running tournaments is as easy as flipping a switch! Casinos can preset tournament settings ahead of time as well as save settings for multiple tournament choices.

Players can peek cards, see the status of each player in the game and use the intuitive decision panel to input the action they want to take.

Players can track table action in between turns with table map view.

DTS-V Pit dimensions and recommended space requirements for a 6 table pit.
