Authorization or Opt-Out of Authorization to Permit Access:

When this Application Data Sheet is properly signed and filed with the application, applicant has provided written authority to permit a participating foreign intellectual property (IP) office access to the instant application-as-filed (see paragraph A in subsection 1 below) and the European Patent Office (EPO) access to any search results from the instant application (see paragraph B in subsection 1 below).

Should applicant choose not to provide an authorization identified in subsection 1 below, applicant **must opt-out** of the authorization by checking the corresponding box A or B or both in subsection 2 below.

NOTE: This section of the Application Data Sheet is **ONLY** reviewed and processed with the **INITIAL** filing of an application. After the initial filing of an application, an Application Data Sheet cannot be used to provide or rescind authorization for access by a foreign IP office(s). Instead, Form PTO/SB/39 or PTO/SB/69 must be used as appropriate.

1. Authorization to Permit Access by a Foreign Intellectual Property Office(s)

A. Priority Document Exchange (PDX) - Unless box A in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the European Patent Office (EPO), the Japan Patent Office (JPO), the Korean Intellectual Property Office (KIPO), the State Intellectual Property Office of the People's Republic of China (SIPO), the World Intellectual Property Organization (WIPO), and any other foreign intellectual property office participating with the USPTO in a bilateral or multilateral priority document exchange agreement in which a foreign application claiming priority to the instant patent application is filed, access to: (1) the instant patent application-as-filed and its related bibliographic data, (2) any foreign or domestic application to which priority or benefit is claimed by the instant application and its related bibliographic data, and (3) the date of filing of this Authorization. See 37 CFR 1.14(h)(1).

B. Search Results from U.S. Application to EPO - Unless box B in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the EPO access to the bibliographic data and search results from the instant patent application when a European patent application claiming priority to the instant patent application is filed. See 37 CFR 1.14(h)(2).

The applicant is reminded that the EPO's Rule 141(1) EPC (European Patent Convention) requires applicants to submit a copy of search results from the instant application without delay in a European patent application that claims priority to the instant application.

2. Opt-Out of Authorizations to Permit Access by a Foreign Intellectual Property Office(s)

☐ A. Applicant **DOES NOT** authorize the USPTO to permit a participating foreign IP office access to the instant application-as-filed. If this box is checked, the USPTO will not be providing a participating foreign IP office with any documents and information identified in subsection 1A above.

☐ B. Applicant **DOES NOT** authorize the USPTO to transmit to the EPO any search results from the instant patent application. If this box is checked, the USPTO will not be providing the EPO with search results from the instant application.

NOTE: Once the application has published or is otherwise publicly available, the USPTO may provide access to the application in accordance with 37 CFR 1.14.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific

countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4258).

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Primary Examiner, Art Unit 3618

Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) 1.133 Interviews

Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiners responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicants correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,-
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicants record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiners version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, Interview Record OK on the paper recording the substance of the interview along with the date and the examiners initials.

 AMENDMENT AND RESPONSE TO NON-FINAL OFFICE ACTION

Via EFS-Web

Commissioner for Patents
 Alexandria, VA 22313-1450

Commissioner:

In response to the Non-Final Office Action dated September 29, 2022, Applicant submits the following amendments and remarks. In light of these remarks, Applicant respectfully asserts that all of the claims of the patent application are patentable, and that the application be allowed.

Amendments to the Drawings begin at page **2** of this paper.

Amendments to the Specification begin at page **3** of this paper.

Amendments to the Claims begin at page **4** of this paper.

Remarks begin on page **9** of this paper.

AMENDMENTS TO THE DRAWINGS

Please replace sheet 5 of the originally filed drawings (depicting FIG. 8A) with the Replacement Sheet submitted herewith.

AMENDMENTS TO THE SPECIFICATION

Please amend the last full paragraph on page 12 of the originally filed specification as follows:

The exemplary stroller frame 81 can also include a pair of folding mechanisms 81e (only the left folding mechanism is shown). The pair of folding mechanisms 81e may include a pair of spaced apart pivots 94. In one example, each folding mechanism 81e can be coupled, either directly or indirectly to the corresponding front wheel support frame 81a, back wheel support frame 81b, and upper tube support frame 81c on the corresponding side (left and right) of the stroller 80. In certain example embodiments, one or more of the corresponding front wheel support frame 81a, back wheel support frame 81b, and upper tube support frame 81c are rotatably coupled and rotatably adjustable about one or more axes defined through the folding mechanism 81e. As such, in certain example embodiments, the folding mechanism 81e allows the stroller 80 to be folded into a more compact size for storing or transportation. Figure 8B shows the stroller 10 in a folded configuration.

Please amend the last paragraph on page 14 (which extends to the top of page 15) of the originally filed specification as follows:

The example stroller of Figure 8A can also include the first stroller seat 86. In certain example embodiments, the first stroller seat 86 can be located generally closer to the handle portion 81d than to the front wheels 82 and/or a front end 90 of the stroller 80. The first stroller seat 86 may be fixedly coupled or removably coupled to the frame 81. In certain example embodiments wherein the first stroller seat 86 is removably coupled to frame 81, the first stroller seat 86 may be adjustable from a forward-facing configuration to a rearward-facing configuration and vice-versa, as shown, for example, in Figures 8B-8C. In addition, the second stroller seat 85, when coupled to the corresponding removable seat attachment adapters 84, can be adjustable from a forward-facing configuration to a rearward-facing configuration and vice-versa.

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listing of claims for this application.

REMARKS

This Response is believed to be fully responsive to the Non-Final Office Action dated September 29, 2022. Claims 1-30 are pending. Claims 1-4 and 13-15 stand rejected. Claims 5-12 and 16-30 are withdrawn. Claims 1 and 16 are presently amended. After entry of the present claim amendments, claims 1-30 will be pending. The amendments to the claims are fully supported by the specification and drawings as originally filed.

It is respectfully submitted that no new matter has been added by the aforementioned amendments.

Although this Response may include characterizations of claim scope and/or the applied references, Applicant is not conceding that the subject matter encompassed by the claims at any stage of prosecution of this application prior to this Response is unpatentable over the art cited during prosecution of this application. Rather, any characterizations are being made solely to facilitate expeditious prosecution of this application. Applicant respectfully reserves the right to pursue at a later date, in this or in one or more divisional and/or continuing applications, any previously pending or other broader or narrower claims that capture any subject matter supported by the present disclosure.

Reconsideration and allowance of this application is respectfully requested in view of the remarks presented below.

Examiner Interview Summary

Applicant thanks the Examiner for the courtesy extended during the interview conducted on November 9, 2022, during which various aspects of the current rejection were discussed. No agreement was reached regarding patentability.

Election/Restrictions and Rejoinder

Applicant affirms the election of Species F (FIGS. 8A-8H), and claims 1-4 and 13-15 for examination. Claims 5-12 and 16-30 are withdrawn herein.

However, Applicant respectfully requests rejoinder of at least claims 5-12 and 16-26, as independent claims 1 and 16 are allowable for at least the reasons set forth herein. Reconsideration is respectfully requested.

Claim Objection

Claim 1 is objected to for a typographical error that is corrected by the present amendment to claim 1. Reconsideration is respectfully requested.

Drawings

The drawings are objected to under 37 C.F.R. 1.83(a) with respect to the claimed “front end portion” and “pair of spaced apart pivots.” Applicant submits this objection is overcome by the present amendment to the drawings and specification, made solely to compact prosecution. Reconsideration is respectfully requested.

Claim Rejections Under 35 U.S.C. § 112

Claims 1-4 and 13-15 are rejected under 35 U.S.C. § 112(b) as allegedly being indefinite. This rejection is traversed for at least the following reasons.

Regarding “configured to couple,” “configured to receive,” “without changing its footprint,” and “at least two rear wheels” in claim 1, Applicant submits the issues are moot in view of the present amendments made solely to compact prosecution.

Regarding “substantially over” in claims 3-4, Applicant respectfully submits that the plain meaning of the word to one having skill in the art is sufficient to render the claim language definite. Reconsideration is respectfully requested.

Claim Rejections Under 35 U.S.C. § 102

Claims 1-4 and 13-15 are rejected under 35 U.S.C. § 102(b/e) as allegedly being anticipated by US Pat. Pub. No. 2010/0013281 to Chen (Chen). This rejection is traversed for at least the following reasons.

Claim 1 is amended to clarify that “the second seat assembly compris[es] right and left seat attachments disposed along the right and left support members of the frame, respectively, at a second vertical position that is lower than the first vertical position, and wherein the second vertical position is closer to the front end portion than the handle portion... wherein the first seat and the second seat, when connected to the frame, are arranged in an inline descending configuration substantially along the plane of the frame.” Claim 16 is similarly amended.

Chen does not teach or suggest at least these elements of claim 1. As can be seen at least in FIG. 5 of Chen (reproduced below), Chen does not teach or suggest at least the claimed “second seat assembly comprising right and left seat attachments disposed along the right and left support members of the frame, respectively, at a second vertical position that is lower than the first vertical position, and wherein the second vertical position is closer to the front end portion than the handle portion... wherein the first seat and the second seat, when connected to the frame, are arranged in an inline descending configuration substantially along the plane of the frame.”

Accordingly, reconsideration and withdrawal of the rejection of claim 1 and its dependent claims is respectfully requested. Because claim 16 recites similar elements, allowance of claim 16 and its dependent claims is also respectfully requested.

FIG. 5

NO WAIVER

All arguments presented herein in support of patentability are without prejudice or disclaimer. Additionally, merely example distinctions from the references have been discussed. Other distinctions may exist and the right to discuss these additional distinctions in a later response or on appeal is reserved, if appropriate, in this or another related application. By not responding to additional statements made by the Examiner, such as what is taught by each cited reference or alleged to be obvious in view of the cited references, Applicant does not acquiesce to the Examiner's additional statements. The example distinctions discussed herein are sufficient to overcome the mentioned rejections.

CONCLUSION

It is believed that each matter raised by the Office Action has been addressed by this Response. Accordingly, allowance of the claims is respectfully solicited. It is not believed that extensions of time or additional fees are required beyond those that may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned for under 37 C.F.R. § 1.136(a), and any fee required therefore (including any fee associated with net addition of claims) is hereby authorized to be charged to Deposit Account No. 19-5029. If there are any issues that can be resolved by teleconference or an Examiner's Amendment, the Examiner is invited to telephone the undersigned.

Respectfully Submitted,

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

DETAILED ACTION

Notice of Pre-AIA or AIA Status

1. The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

Response to Amendment

2. The reply filed on 11/18/2022 amended claims 1 and 16. Claims 1-30 are currently pending herein, however claims 16-30 were previously withdrawn in response to a restriction requirement.

Election/Restrictions

3. Claim 1 is allowable. The restriction requirement between embodiments, as set forth in the Office action mailed on 9/29/2022, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Specifically, the restriction requirement of Claims 5-12, directed to a non-elected embodiment, are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 16-30, directed to a non-elected invention are withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

5. The application has been amended as follows:

In the Claims:

Cancel Claims 16-30.

Allowable Subject Matter

6. Claims 1-15 are allowed.

7. The following is an examiner's statement of reasons for allowance: The prior art of record when taken alone or in combination with another does not teach or fairly suggest at this time at least, among other limitations: A stroller convertible from a single seat configuration to a double seat configuration without increasing its footprint, comprising: two rear wheels; only two front wheels; a frame supported by the front and rear wheels and comprising a handle portion and left and right foldable support members extending from the handle portion towards a front end portion of the frame, the foldable support members extending in a parallel, spaced relationship and substantially within ***a plane that runs diagonally from the handle portion towards the front end portion of the frame; a first seat releasably connected to the frame***

at a first vertical position that is closer to the handle portion than the front end portion, the first seat being connectable to the frame in either a forward or backward facing position to form the single seat configuration; and wherein the frame receives an optional second seat assembly to form the double seat configuration, the second seat assembly comprising: ***right and left seat attachments disposed along the right and left support members of the frame, respectively, at a second vertical position that is lower than the first vertical position, and wherein the second vertical position is closer to the front end portion than the handle portion; and a second seat connectable to the right and left seat attachments in either a forward or backward facing position; wherein the first seat and the second seat, when connected to the frame, are arranged in an inline descending configuration substantially along the plane of the frame,*** as claimed in Claim 1 (emphasis added to allowable limitations not suggested or taught by the prior art).

8. The prior art discloses similar examples of strollers apparatus (see attached Notice of References cited). However, the prior art does not appear to teach or fairly suggest the combination of limitations of amended independent claim 1 as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure, and can be found on the attached Notice of References Cited.

Art Unit: 3618
