CyberLink Launches YouCam 3, the Fun Webcam Effects Software for Live Video Chats and Video Blogging

Taipei, Taiwan—June 15, 2009—CyberLink Corp. (5203.TW), innovative solutions provider for the connected media lifestyle today released CyberLink [YouCam 3](#), the fun webcam software that includes unforgettable effects for live chats and video blogging, provides easy-to-use video recording modes, and is the first webcam software to support uploading directly to Facebook™ and YouTube™.

YouCam 3 is optimized for leading PC technology, including HD webcams, touch-enabled systems, and ultra-light netbooks.

With over 21,000 videos already available on YouTube via earlier versions of the software, [YouCam 3](#) now offers even more ways to record impressive videos using a webcam. Face-tracking technology, including video noise reduction and auto zooming, and support for HD webcams, enables the easy creation of high quality video clips for posting to a YouTube channel or uploading directly to a Facebook account.

"CyberLink [YouCam 3](#) is not just the most fun you can have chatting via webcam, it is literally an entire video and photo recording booth in one power-packed application," said Alice H. Chang, CEO of CyberLink. "Face-tracking technology, including auto zoom and denoise, plus new animated effects and scene locations, provide heaps of ways to record zany videos that can be shared directly online via Facebook and YouTube."

CyberLink [YouCam 3](#) offers outstanding features for live webcam chats and recording:

- **Heaps of new effects**, including emotion stamps, scenes, headgear gadgets, video recording styles, and more avatars. Thousands of free effects are available for download from the [DirectorZone](#) website.
- **Face tracking technology** enables the accuracy of YouCam's head effects, and with auto zooming makes it easy for users to shoot accurately framed video via a webcam themselves.

- **Automatic lighting** —based on CyberLink TrueTheater technology — ensures users always look their best for the camera, with reduction of video noise, as well as natural adjustment of colors, contrast, and brightness.
- **Direct uploading to Facebook and YouTube**, makes uploading to online communities extremely convenient.
- **Desktop capture mode** enables recording of desktop action, great for creating simple demos that can be communicated directly via instant messenger.
- **Support for high-definition webcams** improves the capturing quality for videos and photos.
- **Touch support** provides more intimate video chats and interaction.
- **A scalable UI** and full screen mode allow display on large widescreen monitors and touch panels.
- **Netbook support** ensures optimized performance on netbook and nettop PCs.

Product Availability

CyberLink [YouCam 3](#) is now available [online](#), supporting the following languages: English, French, German, Italian, Spanish, Chinese (Simplified and Traditional), Japanese, and Korean. CyberLink also offers OEM versions to PC and peripheral manufacturing customers.

- CyberLink YouCam 3 (single license download) at \$34.95
