Subject: Remove Yahoo Messenger and AIM from YouCam3.0 readme and help file
Attachments: YouCam_3.1_UI_SPEC_v1.1.pptx

Dear Daphne,

Because YouCam 1.0/2.0/2.5/3.0 cannot support "Yahoo Messenger 10" and "AOL Instant Messenger 6.9" (We will solve it on YouCam3.1), please help remove Yahoo Messenger and AOL Instant Messenger from readme and help file ASAP. We need rebuild YouCam3.0 to include new readme and help file.

YouCam3.1 GM schedule is 01/14/2010 and we will add some new features:

1. Webcam splitter
2. Share Video with DirectorZone
3. Touch optimization

You can see attached "YouCam_3.1_UI_SPEC_v1.1.pptx".

Thanks.

Tom
