主旨: Re: Please provide SEMs of Panjit's products (Inergy's chip inside)
附件: PX-27.pdf; PX-28.pdf; Neikirk Slides - Panjit Components.pdf

Hi Ingrid,

Attached are copies of all of the images Force MOS used at trial to show alleged infringement by the accused Panjit components. Below are some notes to help you understand each document.

- Neikirk Slides
 - These are the images that Dr. Neikirk used as demonstrative exhibits. As a result, they are not part of the evidentiary record.
 - Each page identifies the relevant MOSFET associated with the image on that page.
 - Many pages include color annotations that Dr. Neikirk added to the underlying images.
- PX-27
 - This is an admitted evidentiary exhibit containing two images that purportedly show the Panjit 2N7002K.
- PX-28
 - This is an admitted evidentiary exhibit containing one image that purportedly shows the Panjit 2N7002KDW.

As further background, Force MOS provided evidence that tied each of these images to the relevant MOSFET. The evidence came from Microtech, the lab that generated the SEM images, as well as testimony from the lab technician explaining how he tracked the physical samples and the images he generated of each sample.

Please let us know if you have any questions.

Best regards,
Charlie

Subject: Please provide SEMs of Panjit's products (Inergy's chip inside)

Hi Charles,

Would you please provide the SEMs of Panjit's products (Inergy's chip inside) which Judge Gilstrap agreed to use during trial?

We'd like to internally confirm them. Thanks.

Best,
Ingrid
