Another Historic Investment Secured Under President Trump

The White House

March 3, 2025

Today, President Donald J. Trump joined Taiwan Semiconductor Manufacturing Company (TSMC) CEO C.C. Wei to announce a historic \$100 billion investment by TSMC in its Arizona-based semiconductor chips manufacturing operation – the largest foreign direct investment in U.S. history.

- **President Trump**: “This \$100 billion in new investment will go into building five cutting-edge fabrication facilities in the great state that we just discussed, Arizona, and will create thousands of jobs – many thousands of jobs, and they’re high-paying jobs. In total, today’s announcement brings Taiwan Semiconductor’s investment to about \$165 billion.”
- **TSMC CEO C.C. Wei**: “It’s going to create thousands of high-paying jobs ... We are going to produce many chips to support AI’s progress and to support the smartphone’s progress. I want to thank President Trump again for his support.”
- **Secretary of Commerce Howard Lutnick**: “President Trump has made it a fundamental objective to bring semiconductor chip manufacturing home to America ... You’re seeing the power of Donald Trump’s presidency because TSMC, the greatest manufacturer of chips in the world, is coming to America with a \$100 billion investment.”

Since taking office, President Trump has secured nearly \$2 trillion in U.S.-based investment – and the best is yet to come.
